The present establish-
 -ment (both superior
 and menial) of the
 Chemical Examiner
 and Govt Bacteriologist
 costs Govt a sum of
 Rs: 80/- per mensem
 as shewn on the
 margin. In his re-
 -port for the ~~past~~ off-
 year (1899-00), the
 Chemical Examiner
 and Govt Bacteriologist
 desired to have his
 est^t strengthened in
 order to enable it to cope
 with the increasing
 work of his Office.
 The Senior Surgeon in
 forwarding that re-
 -port to Govt recom-
 -mended sanction
 for two more Laboratory
 Attendants, one on Rs 15/-
 and the other on Rs 12/-
 But Govt in review-
 -ing that report directed
 that it should form
 the subject of a separate
 Communication

+
 Para 2 of Govt order
 No 10555 of 15/2/07
 "Mis 2892"

Communication to
Government. Hence the
present appln of
~~which~~ the Senior Surgeon, in which he
recommends that sanction
be accorded for two
addl Laboratory attendants,
one on Rs 157. and the
other on Rs 127. a month.

M.O.
22/8/01

Subd to the 3^d Councillor

2/ In his recommendation the
Senior Surgeon has omitted a
Watchman on Rs. 8 per mensem
who is included in Dr. Jinnah's
application. 24/8/01

29/8/01

No 2035 d: 26/9/01.

4 The foregoing orders of the Council were communicated to the Senior Surgeon. In reply, that Officer submits a statement received from Dr. Minerva showing the Laboratory work done during the past 3 years. It appears from the statement that the work has ^{considerably} increased in all its branches.

5 The increase of establishment asked for is:—

2 Laboratory Attendants	
one at 15 and one at 12. . .	27
1 Watchman . . .	8
	35

6 The Senior Surgeon has omitted the Watchman in his recommendation.

7 It will be seen from the margin of page 1 of this Memo that there is already on the Establishment one Laboratory Attendant on Rs. 10. Perhaps the addition of one more attendant on Rs. 12 a month

4

will be sufficient for the present.

Date 3-8-97 Despatch 3/8-

Received -

Encls: nil

Sir,

The abstract contingent bill
of this office for the month of July
97 for Rs 63/1/9 was returned
by the District Treasury officer
with the intimation that the Comp-
-troller has not authorized him
to disburse more than Rs 50/-
per month - This manifestly im-
-possible to keep down the contin-
-gent bill in every month to less
than Rs 50/- as owing to the break-
-age of chemical apparatus and the
purchase of any necessary chemicals
the bill in a certain month may
exceed Rs 50/- - In some months
it may so happen that very little
expense is incurred and the amount
Not

Not spent will lapse to the Government. I shall take care that the whole expenditure in a year does not exceed Rs 600/- but it is desirable that a free hand should be given to me in the matter of monthly expenses. I have therefore the honor to request you will be so good as to obtain the sanction of ^{the} Government for the above proposed rearrangement of Contingent expenses.

I also request that a permanent advance of Rs 50/- may be given to me to meet any sundry expenses that may crop up suddenly in the course of the month.

I have &c
(Sd) M. Brinivasab Rao MB

Mysore Govt.

From 1897

The Comptroller

To The Senior Surgeon and Surg. Comr.

D/24th August -

No 1402
= JAD - 402.

This No 554 of 9th Instant for-
warding Chemical examiner's

examiner's No 15 of 3rd Idem
and requesting that the J. O. maybe
authorized to pass contingent bills
the amount of which may exceed
Rs 50/- a month.

With reference to the above, the
undersigned regrets to ~~observe~~^{state}
that he is unable to comply with
the Senior Surgeon's request
as the Government order convey-
ing sanction distinctly allotted
~~Rs~~ 500Rs per mensem on account
of contingencies not 600Rs for
the year.

Requests therefore that the
Government maybe moved
to alter the grant to 600Rs
a year.

No. 231

Enclosures: Nil

From

The Chemical Examiner and Bacteriologist
to the Government of Mysore,
Bangalore.

To The Senior Surgeon & Sanitary Commissioner
with the Government of Mysore.

Sir,

I have the honour to request that you will be kind enough to obtain the sanction of Government for the entertainment of a competent clerk for my office. Ever since the establishment of the Chemical Laboratory and Bacteriological Institute in Bangalore there has been a good deal of clerical work which has been interfering with my scientific duties. Officers of all grades in the Medical, Police, Revenue, Magisterial and Public Works Departments have constant correspondence with this office and this steadily increasing work renders the services of a good clerk absolutely

218
necessary. Moreover, the Chemical and Bacteriological
work has also been increasing by leaps and
bounds. No less than 89 Chemical and 244
Bacteriological analyses have been
made up to date. I need hardly point out the
desirability of maintaining an accurate
record of the results of these analyses
but I have hardly been able to do so for want
of a clerk. I request that you will be
pleased to recommend that a salary
of Rs 30 rising by annual increments
of Rs 2 each to Rs 40 be sanctioned
for the clerk. My object in fixing this pay
is to attract a really good man and
offer him inducements to stick to my
office for a pretty long time. As the
appointment of a clerk is urgently
required, I request that early orders
of Government may be obtained in
the matter.

Frederick W. Emerson

Surgeon Lt. Col.
Senior Surgeon M.D.

29.
The Chemical Laboratory,
AND
Bacteriological Institute,
Bangalore, 16th May 1898.

No. 252

Enclosures: 1.

From

The Chemical Examiner and Bacteriologist
to the Government of Mysore,
Bangalore.

To The Senior Surgeon & Sanitary Commissioner
with the Government of Mysore

Sir,

returned.

With reference to your Endorsement No 3535 dated 13. 5. 98 on letter ^{no 14727} _{mis No 1846} dated 11. 5. 98 from the Secretary to the Government of Mysore, asking for certain information regarding a clerk for my office, I have the honour to state that the clerical work in previous years was so little that it was managed by the Chemical Assistant & the clerk of the Civil Surgeon of Mysore, who was then the Ex-officio Chemical Examiner. There can, however, be no comparison whatever between the limited Chemical work which then existed and the large amount of steadily increasing Chemical & Bacteriological work now being done, which would entail much Correspondence. The time of my Chemical Assistant is so fully occupied in assisting me in my Chemical work that his Services can hardly be utilized for clerical duties.

2. It is yet premature to form any definite opinion as to what proportion the clerical work of the Civil & Military Station Bangalore and Coorg, bears to other work; for only one

Medico-legal case has as yet been received from the Civil Military Station & none from Coorg.

3. As soon as the arrangements in connection with the organization of the Vaccine Institute are settled, the bacteriological examination of all the lymph sent, will undoubtedly give much additional work.

4. For want of a clerk ever since the establishment of the Chemical Laboratory & Bacteriological Institute in Bangalore, the clerical work could never be satisfactorily attended to. No register of letters received could be kept. To save time & to ensure a speedy disposal of work, much of the correspondence is being conducted by me by means of D.O.s & of these, of course, no record is kept. No less than 300 D.O.s have been written by me to various officers & a good many similar ones have also been received from them. The number of purely official communications received from several officers comes to about 400 & of those issued from this office to 252 since July last. As regards the figures of previous years, there are no records here to show how many were received but of those sent out, some idea can be gathered from the marginally noted information. It will thus be seen that, in addition to the large number of D.O.s, the number of official letters sent out from this office for the last 10 months is $2\frac{1}{2}$ times that of 1896-97. When the Vaccine Institute is fully organized, the correspondence will increase fourfold, as the results of bacteriological examination will have to be communicated to the Supt. of the Vaccine Institute. Moreover I shall then have to devote my whole attention to scientific work which is already heavy enough at present. With the increase of work additional establishment will certainly become necessary, but for the present, the appointment of a single clerk proposed by me, can no longer be deferred without detriment to my other duties. In previous years, there was only chemical work & this too was comparatively little. There was an average of only 64 analyses a year. This year, no less than 95 Chemical & 284 Bacteriological analyses have already been made. Notes of these have to be maintained & I hardly find time to do this to look after my other duties. Seeing that since 17th July 1897, 284 Bacteriological analyses have been made, it is almost certain that this work will increase very greatly in future years. I therefore request that you will be pleased to obtain the early sanction of Govt. for the proposed appointment.

Year	No. of Comm. sent
1893-94...	121.
1894-95...	135.

with the Govt of Mysore
Bangalore

Sir,

S-52.

With reference to Proceedings of
Government No. 16059-60 dated 9.6.98,
Mis F28.96
I have the honour to furnish the informa-
-tion called for therein.

2. From the 1st of July to 31st December 1898
only 1 medico-legal Case was received
from Coorg and none from the Civil & Military
Station, Bangalore. 16 Substances have been
analysed on behalf of private parties
and Rs 115 have been collected, Rs 70 still
remaining due. During the same period
346 and 419 Communications were respectively
received from and sent to various officers

36
in all parts of the Province. Till the temporary
appointment of the clerk, I had to keep notes
of all the analyses done in the Laboratory,
but since his appointment, the clerk has,
in addition to conducting the correspondence,
kept notes of all the 450 analyses done up
to date. My Assistant being relieved of the
clerical work, has been enabled to devote
his attention to his proper duties, and I have
had more time for the ordinary and original
scientific work. I therefore request that you
will be pleased to write to Government for
the sanction of a permanent clerk for my
office. The clerk has been getting only Rs 30
temporarily, but as the work has increased
beyond all expectations and is likely to increase
in the near future, I beg to recommend that his
pay may be fixed at Rs 40 per month rising to
Rs 50 by biennial increments of Rs 5. The
present clerk, J. Venkatarau, is a Kanarese
literate, who has passed several Special
tests of the Madras Presidency; and three months
after taking up this appointment, resigned a
permanent clerkship of Rs 35 and a Sub-probation
appointment of Rs 45 in the Kurnool Collector's office
and a total service of $14\frac{1}{2}$ years. He has been doing
his duties to my utmost satisfaction and I
therefore request that the period of his temporary
service from the 1st of July 1898 may also be reckoned
as service counting towards pension.

Bangalore, 29th July 1899.

No. 528

Enclosures: Nre

From,

The Chemical Examiner and Bacteriologist
to the Government of Mysore,
Bangalore.

The Senior Surgeon and
Sanitary Officer with the Fort of Chellay
Chadra

I have the honour to bring to your
notice that the Existing Menial Establish-
ment consisting of 2 persons on Rs 7
Each and a Sweeper on Rs 6 per
mensem is utterly inadequate
to cope with the increasing work
in the Laboratory. The Sweeper
is fully occupied in cleaning the
Laboratory and in looking after
the large number of rats rabbits,

and quinea pigs that ⁴²are used
in the course of experiments and the
two persons are engaged in attending
to office work and the cleaning
of tubes. They have to go to the market
frequently to get the articles required
for the preparation of the nutritive
media for microbes. They have no
time left to dust the shelves, clean
the apparatus and instruments or
render help to my only Assistant in
preparing the nutritive media. The
Laboratory has now been supplied
with most of the necessary apparatus and
instruments which are liable to be damaged
unless they are kept clean and in
good condition. The handling
of such delicate and costly
instruments requires the services
of a better and more intelligent

class of persons than can be
 had for so low a salary as Rs 7 or
 I therefore request that you
 will be so good as to obtain the
 sanction of Government for the
 appointment of two Laboratory
Attendants, one on Rs 12 and the
 other on Rs 10, per mensem, in
 addition to the 2 persons and a
 Sweeper comprising the present
 Menial Staff.

I have the honour to be
 Sir,
 Your most obed^t Servant
 M. Srinivasan

Enclosures -

From

The Chemical Examiner and
Bacteriologist to the Government of
Mysore.
Bangalore.

To

The Senior Surgeon and Sanitary
Commissioner with the Government
of Mysore. Bangalore.

Sir,

Government, in their Proceedings no: 10553
mis 2892
dated 15 February 1901. reviewing my report
for the year 1899-1900, said that the Senior
Surgeon might send a separate Communi-
cation as regards his recommendation for
increasing the Laboratory Establishment
by the addition of two attendants, one on
Rs 15 and the other on Rs 12 a month. Consi-
dering the increase of work and the very
small Establishment that has to cope with
it, I have the honor to request that you

will be good enough to obtain⁴⁷ the sanction
of Government for these two attendants, and
also for a watchman on Rs 8 per mensem.
As there are only two peons sanctioned for
the present, the watchman is necessary to
guard the Laboratory which contains
many valuable articles.

I have the honor etc.

Yr. Sd. M. Srinivasa Rau M.D.
Chemical Examiner & Bacteriologist
to the Government of Mysore.
